Network Adequacy Overview

county | provider_type | age

Provider Density (per 1,000 Members)

800.45

Tracks the ratio of Medicaid providers to members by county and specialty type

Network Adequacy Rate (% Members with In-County Acces...

98.08%

Measures the percent of Medicaid members with access to at least one provider in their home county.

Primary Care Access Rate (Under 18)

94.32%

Shows share of child (under 18) Medicaid members who received a primary care service in last year.

Provider Density by County & Type

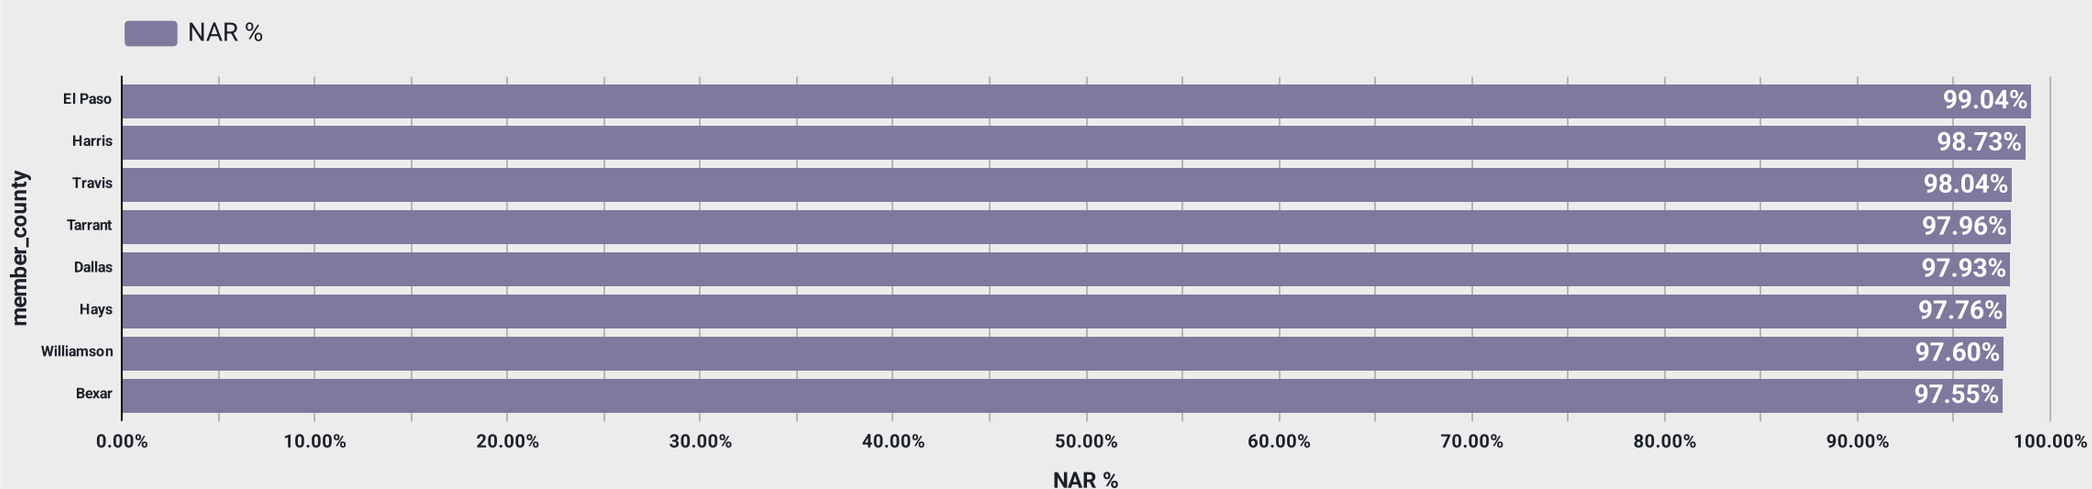
Visualizes provider availability and highlights 'care deserts' in the Medicaid network.

	county	provider_type	num_providers
1.	Travis	Primary Care	34
2.	Dallas	Primary Care	29
3.	Williamson	Primary Care	29
4.	Bexar	Primary Care	28
5.	Tarrant	Primary Care	27
6.	Harris	Primary Care	26
7.	El Paso	Specialist	23

1 - 10 / 41

Member Access Rate by County

Bar chart spotlights counties with low rates of in-county provider access.



Payment Integrity & Outliers

provider_id | status | member_id

High-Risk Provider Count (Top 1%)

4

Number of providers whose claim volume is in the top 1% of all providers.

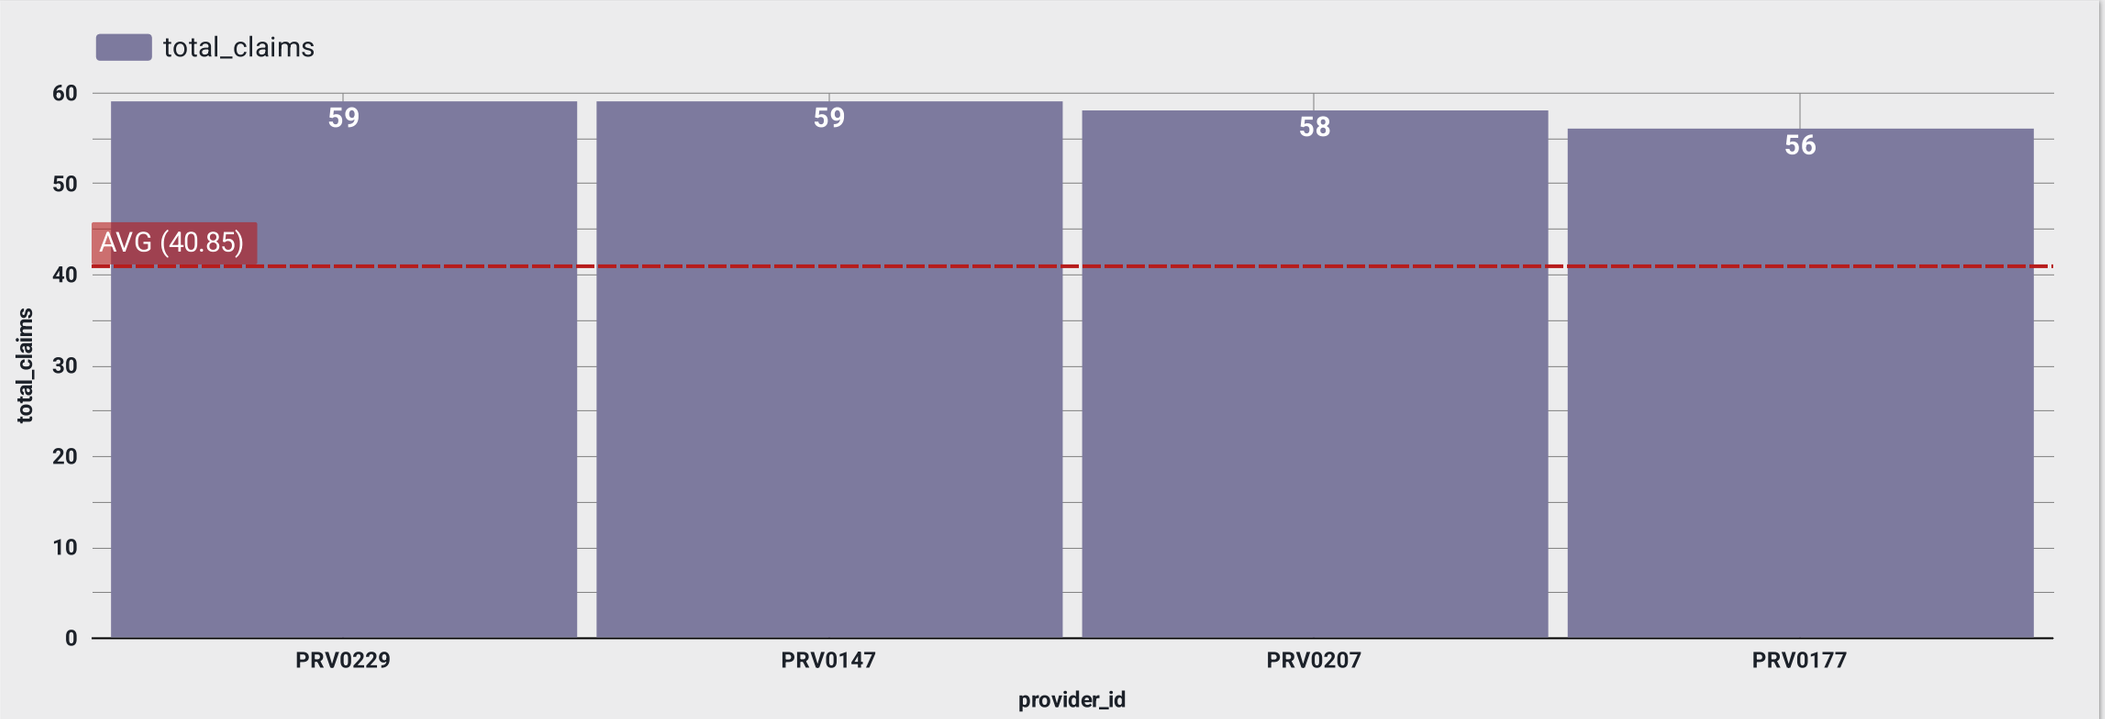
Duplicate Member IDs (Potential Identity Issues)

1,536

Counts unique member IDs used on claims from multiple providers in the same week.

Provider Claim Volume Distribution

Displays distribution of claims per provider, flagging potential overactivity for review.



Outlier Provider List

Tabular list of providers exceeding the median and upper percentile of claims volume.

	provider_id	total_claims	p99_claims
1.	PRV0229	59	55
2.	PRV0147	59	55
3.	PRV0207	58	55
4.	PRV0177	56	55

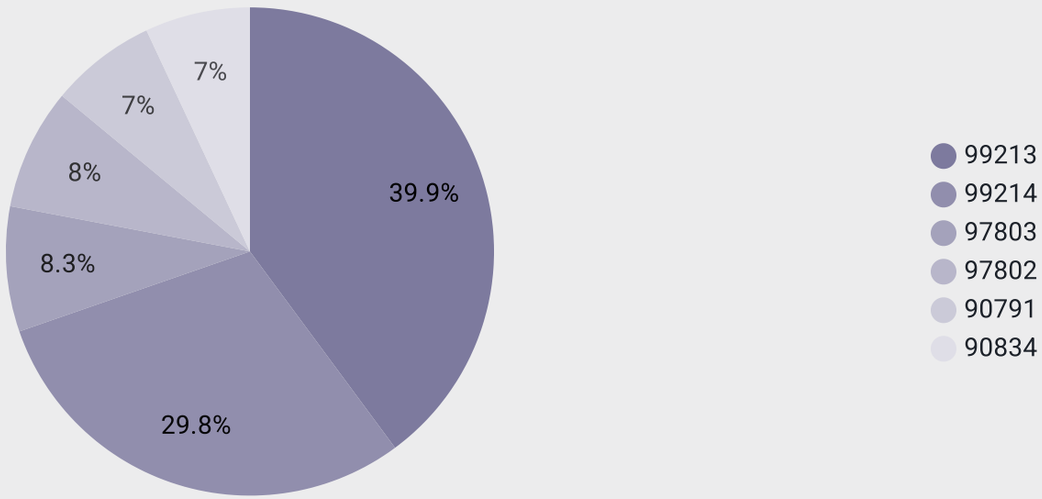
1 - 4 / 4

Utilization & Service Type Detail

cpt_code | claim_id | claim_date | amount_paid

CPT Code Volume

Illustrates the mix of Medicaid service types and utilization rates.



Trend Over Time

Tracks Medicaid paid claims by month for seasonality and spike analysis.
